Email: synthetic.student02@example.com

Phone: 9000 0002

Address: Blk 102 Synthetic Road #03-002, Singapore 000000

NRIC: S0000002Z

Profile: <https://example.com/in/synthetic-student-02>

Skills

SQL, Excel, Tableau, Python, pandas, Statistics

Projects

Retail sales dashboard

Combined three years of store sales tables using SQL joins and aggregations, then built an interactive Tableau dashboard that shows monthly revenue by region. Presented the findings to a mock panel of store managers.

Technologies: SQL, Tableau

Housing price study

Fitted a linear regression to public housing data in Python and checked the residuals to see whether the assumptions held. Wrote a short report explaining in plain language which factors moved prices.

Technologies: Python, pandas, regression

Survey cleaning task

Cleaned messy responses from a 300-person student survey in Excel, removing duplicates and standardising answers, before summarising trends with pivot tables.

Technologies: Excel

Experience

Part-time stock assistant

Counted stock and kept the weekly sales log up to date in a spreadsheet.

Technologies: Excel

Education

BSc Business Analytics - Statistics and probability modules completed
