Email: synthetic.student05@example.com

Phone: +65 9000 0005

Address: Blk 105 Synthetic Road #06-005, Singapore 000000

NRIC: S0000005Z

Profile: <https://example.com/in/synthetic-student-05>

Skills

Linux, Bash, Python, Wireshark, Nmap, Networking

Projects

Home network monitoring lab

Captured traffic with Wireshark on a virtual lab network and identified a port scan and a DNS tunnelling attempt by reading packet captures. Documented what each alert meant and how it could be blocked with firewall rules.

Technologies: Wireshark, DNS, firewalls

Log analysis script

Wrote a Python script that parses authentication logs from a Linux server and flags repeated failed logins from the same address. Packaged it in a Docker container and scheduled it through cron.

Technologies: Python, Linux, Bash, Docker

Capture-the-flag team

Solved web and forensics challenges with a university CTF team, including decoding traffic dumps and recovering hidden data.

Technologies: Linux

Experience

Student helpdesk volunteer

Fixed laptop and Wi-Fi problems for fellow students, reset accounts on Windows and helped configure IP settings and DHCP on the campus network. Explained fixes to non-technical users in plain language.

Technologies: Windows

Education

BSc Information Security - Networking and operating systems modules completed
