Address: Blk 107 Synthetic Road #08-007, Singapore 000000

NRIC: S0000007Z

Profile: <https://example.com/in/synthetic-student-07>

Skills

Python, SQL, pandas, PostgreSQL, Airflow, Spark, Git, Docker

Projects

Bike-share data pipeline

Wrote Python scripts that download monthly trip files, clean and reshape them with pandas and load them into a PostgreSQL warehouse using SQL COPY and INSERT statements. Added checks that stop the load when the row count or null rate looks wrong.

Technologies: Python, pandas, PostgreSQL, SQL

Scheduled ingestion

Scheduled the pipeline to run every night using Apache Airflow and cron, and wrote alerts for failed runs.

Technologies: Airflow, cron

Warehouse reporting views

Created SQL views that join and aggregate the trip tables so analysts could build weekly reports, then built an interactive Tableau dashboard on top of them.

Technologies: SQL, Tableau

Experience

Data intern at a student-run startup

Consolidated customer spreadsheets into one database table and explained the data quality issues to the founders in plain language.

Technologies: SQL, Excel

Education

BSc Data Science - Databases and distributed systems modules completed
